[EXPERIENCE]

Nov. 2023
- Present

[SOFTWARE DEVELOPMENT INSTRUCTOR] – UPRIGHT EDUCATION - NYC, NY (REMOTE)

- Lead part-time 6-month program teaching fundamental web development skills in HTML, CSS, and JavaScript.
- Conduct live coding lectures to enhance practical coding skills.
- Stay current with industry trends and incorporate relevant technologies into the curriculum.
- Instruct students on utilizing React, Express, and MongoDB to develop full-stack applications.
- Provide hands-on experience with styling libraries and guide projects involving API creation and interaction.

Nov. 2021 -
Mar.2022

[REACT DEVELOPER] – PILLOWFORT - AUSTIN, TX (REMOTE)

- Collaborated on a small team to transition a microblogging website to React and TypeScript, contributing to the project's overall success.
- Utilized Git for version control, maintaining a well-organized and collaborative development workflow.
- Innovatively designed and implemented dynamic front-end components using React, contributing to a more interactive and engaging user experience

Sept. 2020 -
Sept.2022

[TEACHING ASSISTANT - JAVASCRIPT/C#] – ELEVEN FIFTY ACADEMY - INDIANAPOLIS, IN (REMOTE)

- Assisted Lead Instructors with part time Web and Software Dev courses.
- Provided students with support in debugging, providing lesson plans for their success throughout the course

[EDUCATION]
